

Benjamin Gazé

Senior Laravel
Developer

Skills

- **Backend Laravel and architecture:** data model, APIs, software design. Modular architecture, Composer packages, multi-tenant.
- **Quality, migrations and production:** Pest, PHPStan, Pint, e2e tests, pre-commit hooks, major stack migrations.
- **Industrialized AI workflow:** framing → specification → implementation → validation.
- **Tech lead and knowledge sharing:** pedagogical code review, explicit conventions, documentation, ADRs, dialogue with non-technical teams.
- **Languages:** PHP 8.4, JavaScript ES6+, SQL, HTML5, CSS 3, SASS.
- **Main stack:** Laravel 12+, Vue 3 + PrimeVue, Pest + PHPStan, Docker, Claude Code.

Experience

bnb.re – Senior Laravel Developer

Since Nov. 2019, Réunion Island.

- Development of high-stakes business applications: architecture, APIs, backend, rich frontend, integration with information systems.
- Core contributor to the internal Laravel packaged stack (100+ client projects).
- Industrialized AI workflow: agents, domain skills, codified conventions.
- Client cases: ARS Habitar (full redesign), Varuna (multi-subsidiary CMMS), Plan Sénior St-Denis, AFPAR, ...

Cari – Senior Laravel Developer

June 2015 – October 2019, Réunion Island.

- Design and development of high-traffic web platforms and business applications.
- Introduced Laravel and Git as the reference stack and workflow for complex projects.
- Mentoring of the technical team and juniors.
- Client cases: reunion.orange.fr, mayotte.orange.fr, Pace Training, IExpressProperty, ...

Freelance – Web Developer

January 2010 – June 2015, Réunion Island.

- Self-taught full-stack web (PHP, JavaScript, Symfony 2, jQuery).
- Design and development of a custom management software for an orthodontist practice.

Pardon Création International – IT Manager

June 2008 – December 2009, Réunion Island.

- Set up and managed the company's IT infrastructure, server room and backups.
- Implementation of CEGID Business Place (commercial and accounting management).
